

# WL 100

An effective and convenient POU cooler for dispensing fresh and clean drinking water in the workplace. Designed with the modern office in mind, the WL100 will address the requirements of small and medium sized workplaces. Our high performance carbon filtration guarantees an unlimited supply of fresh, great tasting water.

## Science in. Impurities out.

### Delivering Pure Water Technology

This Waterlogic dispenser has 2 core technologies which mean that what you get out of your machine is much better than what goes in:

**1. Filtration:** Our filtration technology is really good at taking the bad stuff out and leaving the good stuff in. This stage removes chlorine and other waterborne tastes and odours.\*

**2. BioCote®:** We've got the inside covered and the outside too. As another layer of defence, BioCote keeps the dispensing area free of bacteria.

\*Dependant on filter type used and water conditions

## Performance Worthy of an Encore

- Ideal capacity for the small / medium workplace
- Hot, cold and ambient options
- Easy connection to your existing mains water supply
- BioCote® antimicrobial protection around the dispensing area
- Designed with the modern office in mind
- Freestanding and countertop options to suit every workplace

## The Boring Bits
